

# Study English in the UK

## A world Language

English is vital to success in any international career. The home of the English language is the perfect place to learn it.

### Where to study

Choose the environment that suits you best. Do you want to be in a big city, a small town, by the sea or in the countryside? In a small language school or a larger college? Whatever your preference, you'll find accredited language centres in all part of the UK – England, Scotland, Wales and Northern Ireland.

You might be drawn to the cosmopolitan atmosphere of London or Edinburgh, or the world-famous university cities of Oxford and Cambridge. Maybe you would prefer a centre in a smaller town, or one based in an old manor house in the peaceful countryside? Seaside locations, especially on England's south coast, are also popular choices, particularly during the summer. You can also choose between the various types of language teaching centres. Private language schools will offer a different lifestyle to universities and further education colleges.

Cost may also be important so consider all the options. There will be price variations between the different regions of the UK. Studying in a big city may work out more expensive than in the countryside. Make a few comparisons before making your decision. Accommodation varies in price, too. Staying with a family is usually the most cost-effective option as breakfast and dinner are often included.

### Tips on choosing a course

- Choose the right course for you by asking the following questions:
- How long is the course?
- How many hours of teaching are there each week?
- How many students are there in each class?
- How much are the course fees?
- What's included and are there any extras such as course books that I have to pay for?
- What type of accommodation is offered and how much will it cost? Can I take examinations or gain qualifications?

A reputable language travel agent or your local British Council office can offer advice on selecting a course.

# The British Council

The British Council is the United Kingdom's international organisation for educational opportunities and cultural relations. Its purpose is to build engagement and trust for the UK through the exchange of knowledge and ideas between people worldwide.

## The British Council in Slovakia

The British Council has been operating in Slovakia since 1992. Its main office is in Bratislava, and it has British Centres in public libraries in Kosice, Presov, Zilina, Banska Bystrica, Nitra and Bratislava.

Its Teaching Centre in Bratislava offers general English courses, courses for young learners, and courses aimed at business needs.

The Council administers Cambridge ESOL English exams, IELTS, and business, educational and professional exams.

In addition, the British Council works with young people on projects designed to address some of the major challenges faced by Slovakia today, including climate change, education, and inter-cultural dialogue.

## Current projects

Slovakia Cultural Profile: a joint project with the Ministry of Culture which makes available online comprehensive information about Slovakia and its culture and heritage in both English and Slovak.  
[www.slovakia.culturalprofiles.net](http://www.slovakia.culturalprofiles.net)

Challenge Europe: a three-year pan-European campaign that aims to make a lasting impact on the climate change debate. In Slovakia, each year 12-15 young influencers work together to develop practical ideas to reduce carbon use.

Intercultural Navigators: developing groups of young leaders in Europe who can easily navigate within and between different cultures and who accept, respect and understand other cultures.

Creative Cities: sharing experience across Europe on how creativity, entrepreneurship and innovation can help to improve people's lives – making cities better places to live, work and play.
